Elaine,

This morning went relatively smooth, between MCM and Seaward. I went onboard the ship with the two pilots no issues. Onboard the tug BMC did not show up, so I was in the engine room with (b) (6). Until we got ready to go alongside the ship. Then (b) (6) was in the Engine room with MCM engineer I did not hear of any problems. (b) (6) was topside in the wheel house with (b) (6). (b) (6) no issues. I spoke to all three of them and asked them to not say anything to them Unless it was an emergency! I plan on being there a few more times and then I would like to back off unless you think otherwise? Then I would just spot check them.
